

QUIZZZ	KAHOOT
Better for students who can read their leader board on their device	Good for students who cannot read screen in the classroom
Students see the questions, answers, and Questions are random—no shouting out of answers (quieter classroom)	Questions are sequential—lot of classroom noise
Student paced—don't have to wait for next question or can take their time – Student driven	Students have to wait until question is closed, answer is given, until next question is seen – teacher driven
Don't need an account to administer quiz (need one to save quiz)	Need an account to administer and save quiz
Data set it little more user friendly and readable	Takes a little added effort to read data set
Very quick to create a new quiz (quiz bank)	Takes more time to create a new quiz
Time limit per question from 30 seconds to unlimited time	Time limit per question at 30 seconds
Less premade games – has library	More premade games (2 million)
Longer URL (Join.quizizz.com)	Shorter URL (Kahoot.it)
Data comes in Excel file	Data comes in Google Sheet or Excel file
Can be used for whole group, centers, or homework	Can only be used for whole group

DIRECTIONS

1. Go to quizizz.com/signup (signup and sign-in)
2. Use a public quiz (search by subject) or create your own
3. Play LIVE or use as HOMEWORK – public quizzes can be copied and edited as your own

4. SETTINGS

- a. Questions (jumble questions, jumble answers, show answers (after questions), show quiz review (at end))
- b. Game (show leader board (student screen), question timer (more points for faster answer), show memes (funny pictures), play music (on student devices))

5. Display CODE for student to join at join.quizizz.com - click START GAME to begin

6. Each individual test results are displayed (and can be saved) and each question contains number correct and number incorrect (good for reteach or small groups)

7. Results are exported to an Excel spreadsheet (if saved)
